D Major (One Octave)

Top Tip: If you've already learnt the G Major (One Octave) Scale and Arpeggio, then you already know the pattern of the fingers for D Major.

Scale

The D Major Scale is made up of the notes D, E, F#, G, A, B and C#.

The patterns of the notes in this scale and arpeggio are very similar to G Major (One Octave), and A Major (One Octave). The only difference is that they all start on different strings.
